

There is an international manufacturer's warranty provided by:

HANOWA AG

INDUSTRIESTRASSE 5

CH-4313 MÖHLIN

With a duration of three years. The manufacturer offers a warranty extension for additional 2 years. This requires registration on the manufacturer's website (www.swissmilitary-hanowa.com)

The corresponding warranty conditions can be found below.

Note: Your statutory rights are not limited by this warranty promise. In particular, any existing statutory warranty rights against us remain unaffected by this warranty promise.

Your SWISS MILITARY HANOWA brand watch is covered against defects in materials and manufacturing under the terms and conditions of this warranty, for a period of three (3) years from the original date of purchase.

The warranty covers the following components: the watch movement, the hands and the dial. Should a covered component be defective in materials or manufacturing during the warranty period under normal use, the watch in question shall either be repaired free of charge or replaced with another watch (the decision lies with the respective authorized international service center or authorized SWISS MILITARY HANOWA dealer).

The warranty can only be made use of if either the corresponding sales receipt or the fully and correctly completed warranty booklet, which has been stamped by an authorized SWISS MILITARY HANOWA dealer, can be presented.

The warranty does not cover:

- the battery, the case, the glass, all kinds of straps or bracelets (including the buckle/clasp)
- damage caused by inappropriate treatment, carelessness, accidents or general wear and tear.
- water damage, unless the watch bears the wording "water resistant" on the case. Water damage to leather straps is not covered by this warranty in any event.*

This warranty is void if the watch has been damaged due to accidents, carelessness, faulty repairs or other circumstances which are not the result of material or manufacturing defects.

In case of replacement, it cannot be guaranteed that the same watch model will be provided. If your original model is not available, you will receive a watch with a similar value and appearance. The warranty for the replacement watch expires three (3) years after the purchase date of the replaced watch.

Further claims of the buyer against the manufacturer that are based on mandatory legal provisions shall not be limited in any way by these warranty provisions.

In the event of a warranty claim, or if the watch needs to be repaired for some other reason:

Please send the watch together with your purchase receipt and/or the fully and correctly completed warranty booklet with the authorized SWISS MILITARY HANOWA dealer's stamp, along with a description of the problem, to your nearest authorized international service center (see

below under INTERNATIONAL SERVICE CENTERS).

For services which are not covered by the warranty, the authorized international service center shall provide the desired services for a charge that is based on the model of watch and type of work to be carried out. The applicable prices can be adjusted at any time.

Please do not send the watch with the original packaging, as this cannot be returned to you. We recommend you obtain insurance when returning the watch and ensure that it is appropriately packaged. No liability will be accepted for loss or damage to the watch during transportation.

Replacement of the battery

Battery changes must be carried out by an authorized international service center or an authorized SWISS MILITARY HANOWA dealer (see below under INTERNATIONAL SERVICE CENTERS). The international warranty shall be void in the event of improper treatment.

Leaving the battery in the watch after its operational reliability can cause leakage and damage the watch movement. This occurrence will not be covered by the warranty.

To ensure that a watch which is marked water resistant is indeed water resistant after the battery has been changed, a test of the water resistance must be performed by an authorized international service center or an authorized SWISS MILITARY HANOWA dealer (see below under INTERNATIONAL SERVICE CENTERS).

Disposal of quartz watches at the end of their useful service life*

This symbol means that this product should not be disposed of in the normal household waste. It should be disposed of via the local, authorized recycling and collection systems. By adhering to this procedure, you will be making a contribution towards helping the environment and improving human health. Recycling these materials also helps to save natural resources.

*only applies in EU member states and in countries with corresponding legislation.
